Abstract—

Index Terms—time series analysis, forex forecasting, exponential smoothing, autoregressive integrated moving average, convolutional neural networks, recurrent neural networks, hybrid methods

I. INTRODUCTION

ACKNOWLEDGMENTS

This report was typeset using \LaTeX , originally developed by Leslie Lamport and based on Donald Knuth's \TeX . A template that can be used to format documents with this look and feel has been released under the [IEEE LICENSE](https://www.overleaf.com/latex/templates/ieee-conference-template/grfzhncsfqn), and can be found online at <https://www.overleaf.com/latex/templates/ieee-conference-template/grfzhncsfqn>.
